ABOUT PAC

Founded in 1998, PAC is an Irish company, which provides to its customers the ability to process and assess applications online efficiently and effectively. Our company offers best practice solutions to enable our customers to enjoy lower administration costs, get higher applicant numbers/conversions and to benefit from a better insight through business intelligence tools. Our goal is to provide support for both customers and applicants, allowing our customers to focus on what matters to them and supplying their applicants with a tailor-made, efficient, user-friendly service.
